

# TESTING SHEET

| PROPERTIES                                     | STANDARD      | RESULT                                 |
|--|---------------|--|
| Chloride Permeability                          | ASTM C1202-19 | Very Low                               |
| Water Permeability                             | EN1062:3      | 70% Reduction                          |
| Depth of Penetration                           | EN1504:2      | Exceeds standard                       |
| Concrete Hardness                              | EN101         | Grade 9 of Mohs scale (Granite is 6-7) |
| Slip Resistance change                         | EN1303-6:2011 | No change                              |
| Bond to cementitious materials (pull-off test) | EN1542:199    | 80% Increase                           |
